

**No high wire, labor & equipment costs**

Hassle-free system installation makes set-up quick and easy without adding up to your bottom line.

**Instant "Plug & Operate"**

Forget long, tedious programming instructions. Pre-programmed user's guide with access group database and time schedules allow the system to be set up and run in just 10 minutes, depending on user's access control needs.

**Record & Report Functions**

Staff entry and exit time is automatically recorded. A detailed attendance report makes monitoring staff, OT claims and payroll processing a breeze.

**Fits Existing Window Based System**

FALCO-ECOM can be integrated with your existing Window based personnel and human resource systems without any new system replacement. Thus, saving you a hefty sum.

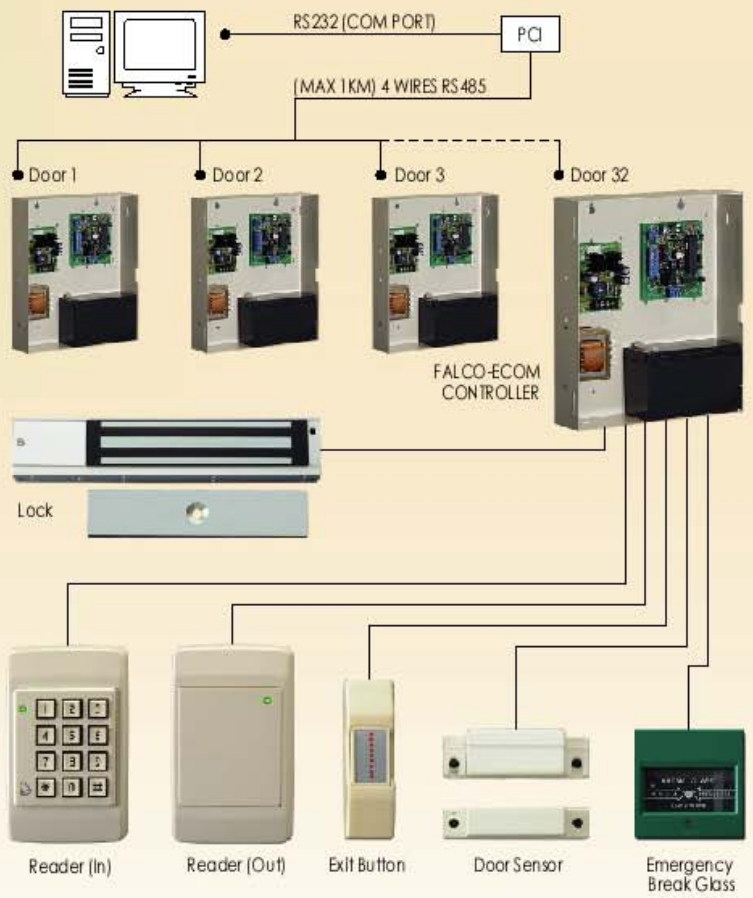

**Flexible System Expandability**

FALCO-ECOM system is designed with future expansion in mind. Users can always add doors minus the usual high-ceiling costs.

**Protection Against System Failure**

With built-in back up power supply, the system is fully operational even during power failure. Users can easily upload and retrieve data if the PC crashes.

# System Configuration
